Our staff is fully involved in the development of our corporate social initiatives. We care for our staff first, as we believe they are making the very difference while delivering our services to our customers.

OUR CUSTOMERS

By ensuring to receive continuous feedback, and to pro-actively taking opportunities out of our professional networks, we continue to learn how to best interact with our customers.

Rules, regulations (like also FIDI FAIM requirements, Professional Cooperation Guidelines etc. are only a starting point). We ensure we adapt what we learn by our 'soft skill' training sessions, held at least twice a year.

OUR PARTNER NETWORK

Our vision and corporate values are always leading, also in our interactions with the supply chain.

Our supply chain partners are required to fully comply with our business ethics, to include FIDI FAIM's ATC and ABC Charters.

Our supplier chain/ partner selection criteria are compliance to our requirements, price, delivery reliability and historic performance data. Areas of potential conflict with regard to our policies are being addressed and discussed. We have a procedure on how we select our partners which is reviewed and updated at least once a year.

Our moving business partners/ agents, for all their work are without exception, always to comply to the international PCG- Professional Cooperation Guidelines, which are created by FIDI and IAM, and accepted throughout our Industry (also recognized by IAM, LACMA and PAIMA branch-organizations).

OUR COMMUNITY

We lead by example. We are actively participating in our professional communities and encourage to 'give and give back'.

The Impact of doing our business is being calculated where possible. Being a major employer in our area we have an open eye for any particular environmental or social issues, such as waste disposal and traffic conduct etc. Moreover we endeavor to support the local market where we can and are interested in supporting local social activities and charitable efforts.
